KBC | SHIMRIN FACTORY PACK
 KANDY BASECOAT

Kandy Basecoats are a mixture of Kandy and select pearls, into a Shimrin basecoat, designed for custom painting. This system provides extreme clarity, depth, and kandy-like appearance in a Factory Pack system. The factory pack KBCs that have a "C2C" prefix stand for Coast-2-Coast compliant. This means these particular KBCs meet all low-VOC regulatory limits, as a solvent-based product.

WHAT DOES THE "L" & "B" STAND FOR?

For truest kandy like appearance from a basecoat our "L" and "B" loading stands above the rest.

EXAMPLE

KBC000123L2-04
L in this position represents a **light base**.
B represents a **black base**.
 The base color determines the loading of the Shimrin2 FX Series used in each formula.

KBC000123B2-04
 The number directly after a B or a L in this formula refers to the effect group being used.
FOR "L" & "B" LOADING REFERTO HOKPG02 OR HOUSEOFKOLOR.COM

L2 EXAMPLE LOADING MIXTURE		
1	S2-FX01 - S2-FX05	METALUME
2	S2-FX21 - S2-FX26	KOSAMENE
3	S2-FX30 - S2-FX39	KOSMATIC STYLING PEARL
4	S2-FX41 - S2-FX47	METAJULS
